Dietrich School Scientific Stockroom

Welcome to the Dietrich School Scientific Stockroom (DSS), the unified operations of the former Biological Sciences and Pitt Chemistry Stockrooms. The DSS maintains a wide variety of scientific products including ethanol, for the convenience of researchers on campus. The stockroom is located in 326 Chevron Science Center, with hours of operation from 7:30 a.m. to 5 p.m. Monday through Friday. When approved by 4:30 p.m., most orders are available for pick up the same day or for next day delivery.

Did You Know?

The Dietrich School Scientific Stockroom carries the products most frequently purchased by the University of Pittsburgh research community. These include scientific consumables, chemicals, and office and janitorial supplies. Customers can pick up their orders at 326 Chevron Science Center or 120F Langley Hall/Garage.

Adding an External Note may delay your order. If you have a special request, please place your order and contact the DSS staff at 412-624-8551 with your PO number and request. Note: If an order error occurs, please do not modify the PO. The stockroom does not receive amended purchase orders.

Ordering Tips

You may wonder, “why does the punchout look like Fisher Scientific’s Punchout?” The Stockroom is operated with inventory management support from Unity Lab Services (part of ThermoFisher Scientific) and as such, our PantherExpress System is integrated with the Fisher Scientific inventory management system known as RIMS. Our Stockroom catalog now runs off of the Fisher Scientific software platform, which is why it mirrors the regular Fisher Scientific Punchout. More Frequently Asked Questions are

also available on the Stockroom webpage
<http://researchservices.pitt.edu/facilities/scientific-stockroom>.

Option 1.

USING DSS STOCKROOM LISTS

Scroll down to the links for “My Hotlists“

Dry Ice is self-service, bringing a container to hold your dry ice is **required**:

DSS Stockroom Address: **326 Chevron Science Center**

Hours: 8 a.m. to 5 p.m. Monday - Friday

<http://researchservices.pitt.edu/dss-location-contact-information>

Here is an excerpt from our [Stockroom Frequently Asked Questions](#) regarding DRY ICE and LIQUID NITROGEN.

To order dry ice and/or liquid nitrogen follow these steps:

1. Go to the storage center for dry ice and liquid nitrogen.
2. Safely obtain the amount of product you need or is available for withdrawal (bring Personal Protective Equipment, appropriate containers for your cryogenes).
3. Go to the Chrome book computer, login to your PantherExpress System account, select the Dietrich School
4. Scientific Stockroom (DSS) Punchout and place an order for the amount of dry ice and/or liquid nitrogen you obtained (if you do not have access to PantherExpress, then note the amount obtained and have your department buyer make the purchase for you).
5. This is required for the tracking and management of these products and how your account will be charged.
6. Submit your order, secure the storage center, and return to your lab.

The PantherExpress System order will be approved by the appropriate account approver by next business day. You will receive an order confirmation, which will be for your records only since you already obtained your product.

Q. Can I have Liquid Nitrogen and/or Dry Ice delivered to my lab?

A. No, these items are not ideal for next day shipping. Dry ice and liquid nitrogen evaporate and require insulated storage containers. Kelly Dry Ice is a University supplier in the PantherExpress System. Sources for liquid nitrogen include Pitt Cryogenics and Matheson, both in the PantherExpress System. Pitt Cryogenics is an internal (Dietrich School of Arts and Sciences) supplier for Liquid Nitrogen and Liquid Helium. Matheson is a contracted gas supplier in the PantherExpress System.

Adding an account number

The screenshot shows the 'Internal Notes and Attachments' window. It contains a section for 'Internal Note' with a 'no note' status and a section for 'Internal Attachments' with a 'no value' status. There is an 'Add Attachments' button and a table with columns 'Size' and 'Attached on'. A red rectangle highlights the 'edit' button in the top right corner. A message at the bottom states: 'User does not have the necessary permissions to view the custom fields associated with this section. View/edit by line item...'.

Internal Notes and Attachments

Internal Note *no note*

Internal Attachments *no value*

Add Attachments

Size	Attached on
------	-------------

User does not have the necessary permissions to view the custom fields associated with this section. View/edit by line item...

If required, click "Edit on Internal Notes and Attachments" and enter your account number. When purchasing from the DSS Stockroom, use subcode 6088 (Interdept Non-Overhead Bearing Supplies). For account activation, contact CFO – Account Requests at accountrequests@cfo.pitt.edu. PRISM system activation takes 60-90 minutes.

Requisitions without the required 6088 subcode will automatically be returned to the buyer by the panther express system.

Choosing how to get your order

Delivery or Pickup.

Leave as Delivery Fee: United States for Delivery

The screenshot shows a requisition form for the Dietrich School Scientific Stockroom. At the top, it says "Dietrich School Scientific Stockroom · 1 Item · 29.02 USD". Below this is a section for "SUPPLIER DETAILS" with a dropdown menu for "Delivery Fee : United States" highlighted by a red box. Under "SUPPLIER DETAILS", there are fields for "Contract" (no value) and "PO Number" (To Be Assigned). Below this is a table with columns: Item, Catalog No., Size/Packaging, Unit Price, Quantity, and Ext. Price. The table contains one item: "1 ETHYL ETHER ANH R ACS 1L" with Catalog No. E1381, Size/Packaging EA, Unit Price 29.02, Quantity Qty: 1 EA, and Ext. Price 29.02. Below the table is a section for "ITEM DETAILS" with a plus icon. It contains fields for "Manufacturer Name" (Unknown), "Manufacturer Part Number" (Unknown), "Supplier Part Auxiliary ID" (EA), "Contract:" (no value), "Taxable" (marked with a red X), "Capital Expense" (marked with a red X), "Commodity Code", "Internal Note" (no value), "Internal Attachments" (Add), "External Note" (no value), "Attachments for supplier" (Add), and "PO Clauses" (no clause). There is also a "more info..." link.

Item	Catalog No.	Size/Packaging	Unit Price	Quantity	Ext. Price
1 ETHYL ETHER ANH R ACS 1L	E1381	EA	29.02	Qty: 1 EA	29.02

Delivery by Pitt drivers is the University's preferred method of transporting supplies to your laboratory. Since the University's preferred method is delivery, your order automatically includes the delivery charge (Delivery Fee: United States Option).

We sell some items that are not easy to transport outside of the building. Here are a couple of real world examples of what. The DSS sells some items that are not easy to transport. These items are not available for delivery, but are sold in the Chevron Science Center complex for the research done there. These include a backup of high-pressure gas cylinders, for emergency use we call the Safety Net. Refills on 20 Liter acetone containers would require a 2-day turn around. Acetone is also sold from the DSS in other size containers. Dry ice and liquid nitrogen evaporate and require insulated storage containers. Kelly Dry Ice is a University supplier in the PantherExpress System. Sources for liquid nitrogen include Matheson, in the PantherExpress System.
